For loads up to 30 lbs. (13.5 kg)

**WS30 TRACK**  
Beige polyester finish.

USE: Standard duty tool rail and horizontal supports up to 30 pounds maximum load.

**NOTE:** Horizontal track must have a support hanger every 6.0 ft. (1.8m) to maintain maximum rated capacity. Multiple spans of rail must be joined using a COUPLER/HANGER.

Consult factory for lengths not shown above.

Separate **TOOL RAIL COMPONENTS** allow you to quickly and inexpensively build your own work stations, retrofit existing stations or customize a kit. Finished as shown, all parts are the same high quality included with kits and guaranteed to be interchangeable. Components shown designed for use with **WS30** rail. Starred (\*) items may also be used with **WS50** or extruded aluminum rails. **Mounting hardware, where required, is included.**
